

« Don't choose your pool according to your constraints but according to your desires!

POOL & VINTAGE® SPA
Free size
INFINITY® FLAT BASE

Inspired by a design of clean and geometric lines, this new concept (as its name suggests), is 'NO LIMIT' : in its shapes, lengths, widths, depths and finishing possibilities.

The pool is designed and built for you, according to your desires and installation and access restrictions.

The POOL INFINITY® and THE VINTAGE INFINITY® SPA are designed and manufactured with innovation, aesthetics and quality in mind.

The technology of its patented structure and the automation of its filtration (with a connected management) are the guarantee of a new generation pool.*

Buried, semi-buried or above ground, the POOL INFINITY® pool can be integrated in small spaces and perfectly adapted to the spaces and can be perfectly adapted to the realization of a complex pool, without generating any particular extra cost.

The creation and manufacture of the POOL INFINITY® and the VINTAGE INFINITY® SPA revolutionize and compete with the traditional market of polyester, concrete, wood and other monocoque swimming pools and manufacturing process for pools and SPAs.

The patented modular chassis is unique on the market. Our design office works and calculates each new project to ensure a perfectly sized pool perfectly sized pool.

Its self-supporting frame, its low weight, its technical manufacturing and assembly make it possible to carry out projects which were projects that were previously impossible, such as a pool or an exceptional SPA on a roof terrace.

The POOL INFINITY® and the VINTAGE INFINITY® SPA can be made of aluminum, hot-dip galvanized steel or stainless steel.

The installation of the finish allows to obtain a double watertightness guaranteeing a better resistance and a good longevity.

And to satisfy your desires perfectly, we offer you:

- A wide choice of finishes: mosaic, tiles, lava stone, marble, gel coat, epoxy resin, reinforced membrane, liner.
- Many options for customization: straight stairs, corner stairs, beach...
- Many equipment options (in PVC or stainless steel): backflow, mirror skimmer, LED mini spotlight, counter-current swimming, LED strip periphery, fiber optics...

* The concept and technology of the structure are patented, designed and developed by MONACO PISCINE. Patent registration number n° 2714.

OPTIONS

Options for the POOL INFINITY® include:

- Counter-current swimming
- Color LED spotlight
- Integrated fiber optics
- Above ground or submerged shutters
- Heat pump
- Summer and/or winter cover
- Reinforced basin for above ground installation
- Overflow basin with spillway
