& SPA
Designer, Concepteur & Fabricant

The VINTAGE INFINITY® SPA are designed and manufactured with innovation, aesthetics and quality in mind.

The technology of its patented* structure and the automation of its filtration (with a connected management) are the guarantee of a new generation pool.

Buried, semi-buried or above ground, the POOL INFINITY® pool can be integrated in small spaces and perfectly adapted to the spaces and can be perfectly adapted to the realization of a complex pool, without generating any particular extra cost.

The creation and manufacturing of the VINTAGE INFINITY® SPA will revolutionize and compete with the traditional SPA market and any other pool and SPA manufacturing process.

The patented modular chassis is unique on the market. Our design office works and calculates each new project to ensure a perfectly sized SPA.

Its self-supporting frame, its low weight, its technical manufacturing and assembly make it possible to carry out projects which were projects that were previously impossible, such as an exceptional SPA on a roof terrace.

The VINTAGE INFINITY® SPA can be made of aluminum, hotdip galvanized steel or stainless steel.

The installation of the finish allows to obtain a double watertightness guaranteeing a better resistance and a good longevity.

And to satisfy your desires perfectly, we offer you:

- A wide choice of finishes: mosaic, tiles, lava stone, marble, gel coat, epoxy resin, reinforced membrane, liner.
- Many options for customization: straight stairs, corner stairs, beach...
- Many equipment options (in PVC or stainless steel): backflow, mirror skimmer, LED mini spotlight, counter-current swimming, LED strip periphery, fiber optics...

OPTIONS

Options for the VINTAGE INFINITY® SPA include:

- Color LED Projector
- Integrated fiber optic
- Heat pump
- Summer and/or winter cover
- Reinforced pond for above ground installation
- Overflow basin with spillway

* The concept and technology of the structure are patented, designed and developed by MONACO PISCINE. Patent registration number n° 2714.
